Editor: Bob Kelly	Rep: F.R. Spires
Ass't: Nilo Menendez	Rep: E. Hurst
Artist: D.W. Reynolds	Printer: R. de Silvestri
Rep: Geo. DeMott	Sports: George Spanos

## EDITORIALS

We owe a debt of gratitude to the people and business firms of Miami, especially the Pan-American and Eastern Airways, Mr Sieler of the Recreation department. The plants through which we have been shown and the organization which have made up welcome have been more than kind to us.

Through them we have been enabled to see just why Miami is the Magic city. These people have been kindness itself to us and we wish to take opportunity to express our gratitude to them.

To-morrow we will have another demonstration of Miami's hospitality when the Methodist Church of Miami will conduct an out door service in camp. The program will be extremely interesting and all who are able should attend.

These people have given their time and trouble to do this so let's show them it's not unappreciated by having a large attendance out there to-morrow.

Striving CCC-"To-day"- Who called it so?

Does this describe us? Is this an accurate picture of the nations 3C'S organization? It is not my purpose to answer these questions, for indeed, I am not positive of my answer. The above is a most popular conception of us men. But we shall battle our way to a better conception gradually.

Our service in the recent disaster in the Florida Keys made apparent our dependability and willingness to aid the nation.

Keep up the fight and we shall deserve the respect of the nation.

## EDUCATIONAL

The trip to the electric light company and the ice plant scheduled for last Sunday, but called off an account of the storm will be undertaken Sunday morning at 9:30 A.M.

Co. 1421 has three baseball teams and one diamond ball team entered in local league. The purpose of this is to enable every man an opportunity to play ball who so desires. There is also a foot ball team Tennis is offered to those who may desire. For those rainy hours there is an excellent tournament on hand. These and other facilities are at your disposal. Let's use them.

Charles Elliot, the great educator, said that if a man devoted a half-hour a day to the study of any subject, he would master it at the end of a few years. Our self-development groups and clubs last a half hour. These classes are scheduled at convenient hours. If you want to get an understanding of material not listed see the educational department. The successful man in every case has mastered something. Most of the men who are good in english are successful in mathematics.

## "1421" INVITATION

There are problems all our own;

Problems of our camp alone,  
Plans where no one can smooth the road  
Nor friendship take from us the load.  
But just to know, we have a friend

Whose interest in us will never end,  
The courage he gives helps pull us through;  
There is nothing he neglects to do.  
And as a company will cry,

Here's to Robert Fechner who always stands  
by;

Co. 1421 invites you to come here,

We wish you joy and happiness the rest of  
the year.

Tho many miles divide us,  
And your face we cannot see.  
Kindly remember Co. 1421.

Wrote these lines to thee.

Geo. DeMott

## LETTERS TO THE EDITOR

We were sorry to see so many of our friends  
leave us in the last enlistment. We have known  
most of them a year or more and have been the  
best of friends. Some boys left the camp to go  
to school; and others left to take positions.  
They have our best wishes.

L;C

The crew with which the writer is working  
is buliding a rock wall for the beautification  
of the public picnic grounds of Mathewson  
Hammock. I happen to be one of the rock cutters.  
Our purpose is to trim the rocks so that they  
will lie in the wall without using a cement  
joint.

The wall is going to be built all the way  
thru the Hammock on both sides of the road.

S;F.R.

## BOYS:

The Young Peoples C.E. at the St. Johns  
Presbyterian Church, 796 N.W. 29th Street, would  
like to have you all attend our Sunday evening  
meeting at 6:30. Come and help us grow.  
Chairman

WHY EVERYONE SHOULD  
KNOW FIRST AID

The first object of  
first aid instruction  
is to prevent accidents  
by educating the indi-  
vidual to use what care  
may be necessary in the  
special circumstance,  
then prompt treatment  
is in it self a measure  
of prevention, for if  
the right thing is done  
quickly at the right  
time the patient is in  
a very much better con-  
dition so the services  
of the doctor can be  
made of the most value.

In this way, by  
knowing first aid many  
a life can be saved  
and an injured person  
made more comfortable.  
First aid training also  
fits a person for use-  
fulness in great dis-  
asters.

The benefit of  
wide-spread knowledge  
of first aid in the  
event of a great disas-  
ter, such as a train  
wreck, an explosion, an  
earthquake, and also  
little injuries in the  
home is very useful as  
it often happens that  
the doctor under such  
circumstance cannot  
always meet the demand  
for their service and  
laymen who have had  
first aid training can  
render efficient as-  
sistance. Many lives  
may depend upon such  
emergency call.

A hick is a fellow  
who waits until wash-  
day to see what the  
girls are wearing.

## YMCA TO OPEN TO ENROLLEE'S

One dollar will purchase many nights of healthful recreation for enrollees of this company.

The YMCA of Miami has made a special offer to enrollees of this company. One dollar will be the service of membership.

The plant at Miami is one of the finest in the South. It contains an indoor swimming pool, billiard tables, indoor tennis courts, and almost a complete line of athletic equipment.

## NOTICE

We have received news from the Myakka Flats that the camp which was once occupied by this Co. for eleven months is now occupied by a Company of Negroes, Co. 5430 under Captian Haven.

The Company arrived a few days ago with two hundred Negroes. They happen to be the same company that took over the camp when this company moved to its present camp site.

We all wish the enrollees and the personnel of that company the best of luck. We have sympathy for the company as we know how the mosquitos and mud affects one as a new comer especially.

We especially hope that they do as good work as was done by the members of this company.

## HOTEL TRAINING

A course of training in hotel work will be offered enrollees by the Dade County School of Industrial arts combined with the FERA Department of Education.

Applicants will be selected by bearing, and posture, neatness, and quality of speech.

This training will be qualified students as bell-hops door-men, for desk work. It was started several years ago to qualify local men for positions in hotel work.

## OFF OF MATECUMBE

The bells sounds sing across the darkness

And plead for something that is lost.

A drifting thing-that can not answer-them.

A white form floats in icy starkness

Here lies a mute thing-cold wave tossed

A drifting thing-that can not answer-them.

The grieved bells throb with langor now

The sea gulls, puzzled, chatter laughter

And glide about the silent wanderer.

The swallows make a passing choir,

Fishes dart before-and after

And glide about the silent wanderer.

Before no mortal cared and now but one will moan

So-forget your cold forgetters beneath the waves smooth spell

Go-sleep-and be forgotten with the song of the bells.

Mystery is greater than a sad life known

Your mystery is too mighty for the waves or me to tell

Go-sleep-and be forgotten with the song of the bells.

## SERVICE TO BE HELD SUNDAY

The Methodist Church of Miami will present an outdoor church service in back of the barracks, at 4 O'clock Sunday.

The direction of the program will be in charge of a young man who has been active in these services for several years.

A trained choir will render several selections, and a trumpet solo will also be given.

# W S P O R T S

## MORE TEAMS

The Wanderers baseball team now in the Dade County League. Will enter two teams in the Northside League. The league consists of six teams which includes the Wanderers.

The team has shown great improvements in its last few starts and should make a good showing in the New League.

## NEW FIELD

The Clara Developing Company will obtain convict labor to clean and develop the field and stadium behind the camp. It will take three weeks to put the field in condition for use. It will be used by Co. 1121 for baseball, foot ball, and other outdoor sports.

Ernie Siller head of the Recreation Department of Miami was instrumental in acquiring the field of use of this company.

## TEAM LOOSESES 4-2

The diamond ball team lost to the Banana Supply Co. Wednesday afternoon by the score of 4-2. The game lasting only four innings was called off on account of darkness.

Had the Wanderers won this game it would have put them tie for first place. The Banana Supply Co. is in first place. The two teams will meet again Sunday at two O'clock in the afternoon at the Incen-erator field.

## CHECKER TOURNAMENT

A Checker Tournament has been started, in which any one may enter, by dropping their name in the entry box in the Rec. Hall. The games will be played on free time.

LIXON: What is the difference between a modern and an old fashioned kiss?  
Wallace: Five Minutes.

## FOOTBALL PRACTISE

Foot ball practise has been delayed because of storm scare. It took on a new outlook to-day at practice under the coaching of Ensign Cain and Project engineer Joe Craig.

Although many have not participated in the event there is plenty of good material, and more is expected.

More's field is now at our disposal for practise. The uniforms were issued Thursday. So lets see a team that will go places.

Richardson: What is the object of Modern dress?  
Moseley: To be as cool and yet look as hot as possible.

## WHAT'S THIS!

Fat lady is getting hard boiled since he is mixing so much cement. Ho and Croff are the official mud slinger's.

Where The Boys Are

Welcome  
GAY'S BAR-B-Q

# Miami Mutterings

"Speck" Dees has taken up the name of Dillinger, we wonder why.

Cecil Lewis better known as "Sarrah", has a certain little brunnett in a fog. Look out "Sarrah" those brunnets sure have a kick.

Why does "Slim" Foster dislike to be called Lacey and why doesn't a Lacey like to be called lazy bones. Lacey can't take it, neither can Foster.

Asher, better known as "King Kong" surely is a swell dancer. He was dancing with a girl last night when all of a sudden she said, "that is my foot you are dancing on instead of the dance floor".

Since Shugars visited Wagner Brewers, Wagner Beer was advertised from Maine to Key West.

It seemed as if one of our "HEROS" tried to raise a big fuss in the laboratory of the U of Miami HO- HUM!

We wonder what makes all the "SON" of Ybor City go around camp wearing big smiles (I mean big smiles). Maybe it's the gold in their teeth EH?

Of course a man of Tony de Silvestri intelligence wouldn't

wonder about anything, so he'll probably criticize the article above.

So tally is playing football. Oh, well, German you just as well sign up.

Another boy gone wrong. Pipkin has been wearing his Sunday clothes on weekdays.

Bill Williams and Larry Sanders are gone so we guess that "Stapin Fetchet" automatically becomes the "Lying Sage of 1421".

"Bushkill" Blount is very obliging to the ladies, even when it comes to picking light-bugs off them.

And then there is "Dirty Shirt" Williams, the man who chases an ice wagon for two blocks to tell the driver it was leaking.

"How'm I doing Jackson?"  
"Sh-sh-sh Be-be".

"Yoo-hoo girls! --- He-he-he-he  
Parrish

"I want the first dance Woodrow!"
